

# 2016 Duval County Community Themes and Strengths Assessment

## Fact Sheet

### Background

- The purpose of this fact sheet is to provide a high level summary of the 2016 Duval County Community Themes and Strengths Assessment (CTSA).
- The survey was developed to gather information on health and quality of life in Duval County. The survey was distributed using a number of methods and 513 surveys were completed during May 26, 2016 – July 22, 2016. The CTSA is one of four assessments that together provide a comprehensive picture of the health status of our community.
- Conducting a CTSA answers the following questions:
  - What is important to the community?
  - How is quality of life perceived by the community?
  - What assets does the community have that can be used to improve community health?

\*Additional data from the CTSA is available upon request. Please contact Dr. Kristina Wilson at [kristina.wilson@flhealth.gov](mailto:kristina.wilson@flhealth.gov).
